

Product Code: 700342

10-Year Smoke Sensor

First Z-Wave 10-year smoke sensor

Fixed installed 10+1 years
lithium battery

Resistive against mechanical stress
and extreme temperature changes

Easy integration into a
wireless Z-Wave network

Intelligent dust compensation
prevents false alerts

Bidirectional wireless protocol
ensures high security

Alarm signal with 85dB/3m

Large test and mute button

Tamper protection

Front

Back

The **POPP Smoke Sensor** sets new safety standards in your home. There are a lot of potential fire sources in your own four walls, for example open fire such as candles or a fireplace. Also an iron, cooking utensils or numerous other electrical devices can cause fire. Smoke detectors save lives! This device is also an indoor siren, which saves your property, too.

The device consists of two parts: (1) a stand-alone smoke detector head that does not only fully comply to the European regulation EN15406 but to the much more advanced guideline vfdb 14-01. This means that the device – among others – ensures a 10 year battery life of the internal battery, is more resistive against mechanical stress and extreme temperature changes, and it is manufactured according to the advanced manufacturing standard UPC-2. (2) a wireless communication module, that has its own separate and replaceable battery. This module fits into the module bay of the smoke detector head and establishes a communication link to a central Z-Wave gateway reporting its battery status and of course any alarm condition. The module is certified according to the Z-Wave Plus guidelines.

Additional functionality of this high end smoke detector include periodic automated self test, dust compensation and special functions for sleeping rooms (no blinking) and easiness of use (large button for testing to be operated by a simple broom stick).

Dimensions: 115x115x47 mm

Weight: 202 g

-  Heating and Climate Control
-  Security Systems
-  Lighting Control
-  Alarm Systems
-  Remote Controls
-  Control Center/ Gateway
-  Sensors
-  Device Control/ Plugs
-  Window and Blind Control

With POPP products your home will become intelligent. Control your house or apartment by tablet pc, desktop pc, smartphone or remote control. Activate the heating when you're heading home, close your windows automatically if the weather changes and receive short messages when sensors set off any alarm at home.

For its smart home products POPP trusts Z-Wave technology. Z-Wave is the international leading standard for wireless communication between intelligent devices in homes and offices and thereby the basis for successful home automation.

POPP smart home products are compatible and interoperable with Z-Wave certified devices from more than 300 manufacturers worldwide.
