CO-DETECTOR

Reliable air quality monitoring
Product Code: 004407

- Carbon monoxide monitoring
- Integrated 10-year battery
- Alarm with 85dB/3m
- Device networking thanks to integrated Z-Wave module
- Memory function informs about previous CO detection
- Large, easy-to-reach button for test and mute function
- Tamper protection
- Triggers the alarm when a CO concentration of more than 43 ppm is detected
- Compliant to EN 50270:1999, EN 60335-1:1994 und EN 50291:2001

The POPP CO-Detector (Product Code: 004407) lets you breathe easy. No matter if you have a chimney or another open fireplace in your house, operate a gas heating system or simply want to do something for the air quality in your home to prevent headaches and discomfort - the CO sensor reliably ensures safety and better living conditions.

- Lighting Control
- Alarm Systems
- Remote Controls
- Control Center/ Gateway
- Sensors
- Device Control/ Plugs
- Window and Blind Control

POPP Smart Home products make your home intelligent. Monitor and control your house or flat with your tablet, smartphone, PC or remote control (Z-Wave capable gateway required). Activate the heating while you are driving home, close windows automatically when the weather changes and be informed when sensors trigger an alarm.

POPP relies on Z-Wave wireless technology for its Smart Home products. Z-Wave is the leading international standard for wireless communication between intelligent devices in homes and offices, and thus the basis for efficient home automation.

POPP smart home products are compatible and interoperable with Z-Wave certified devices from more than 300 manufacturers worldwide.
